SPC 1608, Self-critiques

Objective: to provide students an opportunity to learn objective self-assessment.

Format: Critique should be typed neatly, organized, and spell-checked.

Suggestions: In addition to the three suggestions for improvement and three comments about effective content and/or delivery, students may analyze their delivery in terms of what they would like to do differently. They may ask questions; they may suggest what they would have done if they had the speech to do again.
